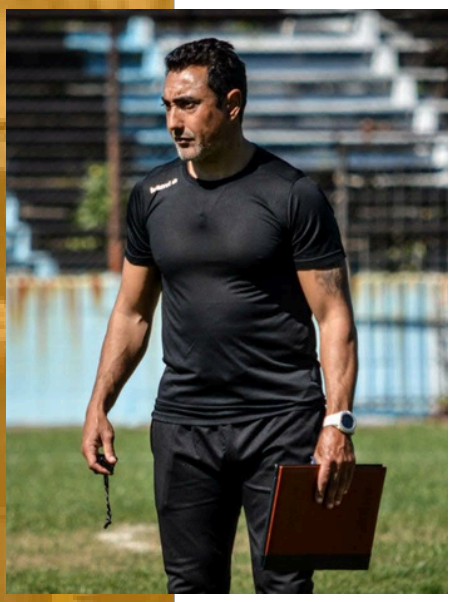
WALTER ALANIS CAPRILE



NATIONAL COACH, PROFESSIONAL UEFA PRO.

To whom it may concern,

I am writing to you as Walter Caprile, a renowned football coach with a solid career in South America, Central America, and Europe. In addition to my experience on the sidelines, I also have a distinguished career as a professional football player, which has been a key factor in my development as a coach.

During my time as a player, I had the honor of being part of Real Club Deportivo España, where we achieved the title of champions in the prestigious "UNCAF Champions" tournament. This playing experience provided me with valuable lessons about teamwork, dedication, and the effort required to achieve sporting success.

After my playing career, I decided to focus my passion for football on coaching. With a lot of hard work and dedication, I obtained the UEFA PRO National Coach license and have had the privilege of working with different teams, allowing me to consolidate knowledge in methodological direction, scouting, and video analysis.

Furthermore, I have received training in analysis techniques using the EricOne platform, which incorporates the solutions EricVideo and EricManager. This training has allowed me to understand and take advantage of the potential for information transfer between video analysis and sports planning, strengthening my ability to carry out detailed and strategic analysis of players' performance and the team as a whole.

One of my main strengths lies in my ability to develop players' individual skills and effectively transmit game systems. My main goal as a coach is to provide each player with the necessary tools to reach their maximum potential and contribute to the collective success of the team.

At this moment, I am looking for a serious project that allows me to apply my abilities and achieve long-term objectives. I wish to be part of an environment that values my experience both as a player and as a coach, and shares the vision of achieving outstanding and lasting results.

I sincerely appreciate your attention and I am available to provide any additional information you may require.

Sincerely,

Walter Alanis Caprile

"Enjoying the journey is the way to achieve the objectives."
