Great ≤ 38	Great ≤ 38	Great 14 -18 step

MONTH	Squat Jump	MONTH	JCM	MONTH	GACON
October	26.1	October	32	November	17 STEP

MAIN QUALITIES / WHERE TO IMPROVE / BEHAVIOUR

Main Qualities	Rodrigo has excellent technical qualities for his age and role. Excellent ball control, passing with both feet and handling the ball. He was predominantly used as a full back (both right and left). The predisposition in the 1>1 defense is also good. The ability to anticipate (reading the game) is also good
Where to Improve	Given his young age and his attitude, he can easily improve on some situations, such as reading offensive situations that he can exploit with overlaps and insertions from behind (since he has good basic technical quality), and marking in the area lateral ball defense. He can also improve the header, especially in the defensive phase to win the aerial duels.
Behaviour	His behavior has always been exemplary in every training session. Polite and respectful this make him a good element for the team group. Always positive attitude
